-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1, 2, 3, 19, and 20, drawn to a method of inhibiting Vif multimerization comprising an antibody, classified in Class 424, subclass 159.1.

II. Claims 1, 2, 4, 6, 19, and 20, drawn to a method of inhibiting Vif multimerization comprising Vif protein fragments, classified in Class 514, subclass 2.

III. Claims 1, 2, 5, 19, and 20, drawn to a method of inhibiting Vif multimerization comprising analogs or derivative of SEQ ID NO:25, classified in Class 514, subclass 2.

IV. Claims 1, 2, 7-15, 17, 19, and 20, drawn to a method of inhibiting Vif multimerization comprising PXP, classified in Class 514, subclass 2.

V. Claims 1, 2, 16, 18, 19, and 20, drawn to a method of inhibiting Vif multimerization comprising peptidomimetic of PXP, classified in Class 514, subclass 2.

The inventions are distinct, each from the other because of the following reasons:

Each of the inventions uses different compositions, each of which has different structures and sequences. Further, the search of each invention is not coextensive and would be an undue burden on the Office.

This application contains claims directed to the following patentably distinct species: the sequences set forth in each of Groups II and IV. The species are independent or distinct because the sequences are different from each other and lack a common structural feature essential to the disclosed utility.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 1, 2, 19, and 20 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 1648

Because these inventions are distinct for the reasons given above and have acquired separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17-(h).

Papers related this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG (November 15, 1989).
